

## Smoke Deflector Installation

**Please read all the instructions before you begin the procedure.** Confirm that you have all the necessary tools and materials. If you have any questions, technical support is available toll free at 1-800-866-4344, Monday-Saturday 9:00 – 5:00 ET

### **Tools Needed:**

- Small Phillips head screwdriver

### **Materials Needed:**

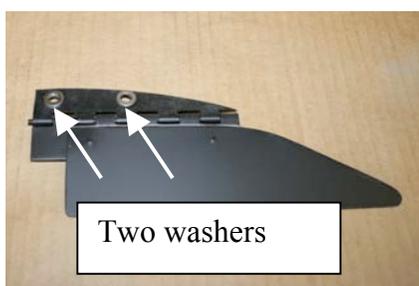

- Progress Hybrid smoke deflector
- Masking tape
- (2) 10-32 x 3/8" screws
- (4) 1/2" washers (used as spacers)

The smoke deflector is designed to keep smoke from spilling into your room while kindling a fire and reloading your Progress wood stove. It is hinged to facilitate loading the stove to capacity.

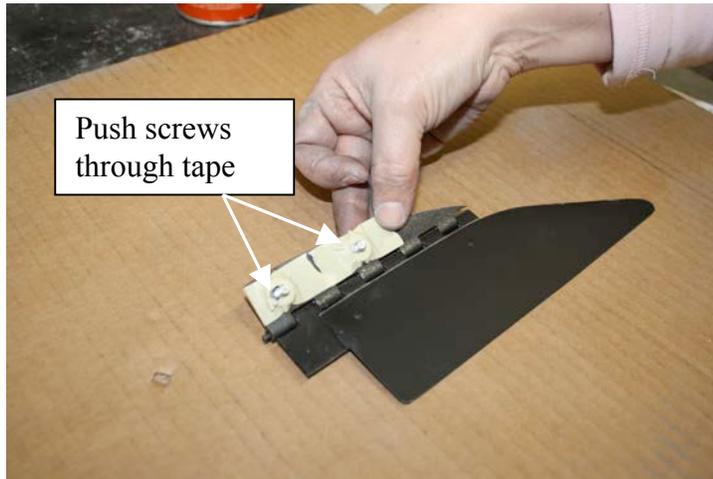

1. Make sure the fire is completely out and the stove is cool.
2. The smoke deflector will be screwed into drilled and tapped holes in the stove body. The holes are located near the top and toward the front of the loading door frame. The flat side of the hinge will face the loading door and the rounded side will face the firebox. The deflector should angle down toward the back of the stove.

3. Use masking tape to hold two of the washers over each hole in the smoke deflector. The washers will act as spacers between the smoke deflector and the body of the stove. They should be on the same side as the flat side of the hinge.

4. Push the screws through the tape and washers from the firebox side to the door frame side.

5. Locate the mounting holes inside the firebox. Hold the smoke deflector up to the holes and start the screws by hand. Be sure the flat hinge side is facing you.

6. Tighten the screws with a phillips screwdriver.

**We need your help!** Woodstock Soapstone Co. takes great pride in providing the highest quality products as well as the best customer service in our industry. We welcome your suggestions and input to help us achieve these goals. If you have any comments to improve our products, service, and information provided in these instructions please contact us at (800) 866-4344 or [info@woodstove.com](mailto:info@woodstove.com). Thank you.
